| Product | Chem. Description | Features and Benefits |
|---|---|---|
| **NA-LUBE ADTC** | Methylene-bis-(Dibutyldithiocarbamate) | Ashless multifunctional additive with EP/AW and AO properties. Outstanding demulsibility and good thermal stability. FZG booster. No negative influence on AFNOR filtration. |
| **NA-LUBE AW-6010** | Amine Salts of Aliphatic Phosphoric Acid Esters | Metal free antiwear and EP additive with no detrimental FZG performance. Light colour and low treat levels. Excellent solubility properties. |
| **NA-LUBE AW-6110P** | Amine Salts of Aliphatic Phosphoric Acid Esters | Multifunctional ashless additive with excellent anticorrosion. Excellent solubility properties, antiwear and EP properties. Light colour, low odor, easy to handle. Lower acid no. than NA-LUBE AW-6110. |
| **NA-LUBE AW-6220** | Proprietary Preparation of Amine Phosphate and Heterocyclic Derivative Chemistry | Ashless antiwear additive. Excellent rust, corrosion, and yellow metal deactivation properties. Low treat levels. Excellent solubility properties. |
| **NA-LUBE AW-6310** | Proprietary Preparation of Sulfur-Phosphorus-Nitrogen containing Chemistry | Multifunctional ashless lubricant additive exhibiting outstanding EP/AW. Rust inhibiting and demulsification properties. Low treat levels and good thermal and hydrolytic stability. |
| **NA-LUBE AW-6330** | Proprietary Preparation of Phosphorus-Sulfur containing Chemistry | Multifunctional ashless lubricant additive. Exhibiting excellent EP/AW and AO properties. Used as a substitute for zinc dialkyldithiophosphates. |
| **NA-LUBE AW-6360** | Proprietary Preparation of Sulfur-Phosphorus-Nitrogen containing Chemistry | Exhibiting outstanding EP/AW performance. Low treat levels as determined with the FZG gear test rig. Excellent rust protection and demulsification properties. Good thermal and hydrolytic stability. |
| **NA-LUBE AW-6400FG** | Amine Salts of Aliphatic Phosphoric Acid Esters | NSF HX-1 approved multifunctional additive. Excellent anticorrosion, AW/EP properties. Light color, low odor. Excellent solubility properties. |
